ADDENDUM NO. 1

Date: January 7, 2015

ITB No. 15-0412

ITB Title: Supply Limerock Base Material

It is the vendor's responsibility to ensure their receipt of all addenda, and to clearly acknowledge all addenda within their initial bid or proposal response. Acknowledgement may be confirmed either by inclusion of a signed copy of this addendum with the initial bid or proposal response, or by completion and return of the addendum acknowledgement section of the solicitation. Failure to acknowledge each addendum may prevent the bid or proposal from being considered for award.

This addendum does not change the date for receipt of bids or proposals.

Questions/Answers:

Question 1: Section 1.6.2 mentions that a price redetermination would be made on unleaded gas. Our trucks are diesel. Please advise.

Answer 1: See changes below.

Question 2: On page 23 at the bottom of the page has an area for the vendor to fill out regarding the limerock (per ton) price and delivery per mile (per ton) price. How can the vendor fill this out when the miles are unknown?

Answer 2: The County is requesting a fixed price for the delivery per mile per ton when material is to be delivered directly to a project site located within Lake County. The total cost will change based on the number of miles from the originating point to the delivery location.

Changes to ITB:

Add:

Pricing Section (Page 24):

Type of Fuel (See Section 1.6.2): _____

Delete:

Pricing Section (Page 24):

~~Current Base Index Number for Fuel at the time of bid submittal (See Section 1.6.2)~~ _____

Date of Current Base Index Number: _____

Changes (See **highlighted** words below):

1Section 1.6.2: Price Redetermination – Fuel (Current Fuel Base Index Number to be inserted on Section 4 – Pricing Section, Page 24, when Bid is submitted)

If the below-identified price index for fuel (gas and/or diesel as applicable to the vendor's operation) increases by ten percent (10%) or more from the price index in effect on the beginning date of any contract resulting from this solicitation, the vendor may petition the Procurement Services Director in writing for an appropriate increase in the contract price(s). Any increase in the contract price(s) will be applied considering the relation of fuel cost to the contractor's total cost for the contracted product or service.

Any price re-determination will be solely based upon the percentage change between the base index and the current month index as documented by the:

State of Florida Department of Management Services

http://www.dms.myflorida.com/business_operations/state_purchasing/vendor_information/state_contracts_agreements_and_price_lists/state_term_contracts/bulk_fuel_gasoline_and_diesel **as stated by the vendor for** Florida PAD 1, Orlando

The base index will be the **last** index number for the month prior to the bid due date stated in the solicitation. The current month index will be the last month's index published before the request for a price re-determination is made.

The vendor shall provide (in writing) a cost analysis as described below for each contract price for which the vendor is requesting adjustment. This analysis must include the percentage increase calculation between the base and current month indices; a clear and detailed representation of the fuel cost component of any contract price for which an adjustment is requested; and a calculation showing the original contract price, the requested adjustment, and the proposed revised price. As an example: if the fuel index increases by twelve percent (12%) and the fuel cost accounts for ten percent (10%) of the cost of the product or service, then the contract price may be increased by 1.2 % ($0.12 * 0.10$). The vendor may submit additional clarifying or justifying information for the County's consideration. Failure to provide sufficient detail in the manner described above shall result in rejection of the vendor's request for pricing adjustment.

If the Procurement Services Director grants any increase in any contract price based upon this clause, the increased price(s) may be adjusted downward on a unilateral basis by the County if the fuel index(es) used to support any previous increase then decrease by ten percent (10%) or more. Any such decrease will be based on the calculations submitted by the vendor pertaining to any previous price increase.

This clause may be used in addition to any other price redetermination clause in this invitation/contract.
